December 17, 2008

GOLDEN, COLORADO – Echoserve, Inc. is pleased to announce that the company has achieved ISO9001:2000 and ISO13485:2003 Medical Device Directive registration. The registrations cover the repair, service and distribution of diagnostic imaging and patient monitoring systems, including component parts, as well as the manufacture and distribution of digital x-ray detectors. The company's new, state-of-the-art, 27,000 square foot headquarters facility has also received an ISO certificate of registration.

"I'm extremely proud of the Echoserve team for achieving ISO9001 and ISO13485 registration," said Christopher Cone, Chief Executive Officer for Echoserve. "This was a major company objective for 2008 and we're now one of a very small group of companies in our space to have these certifications. As a management team, we feel strongly that our commitment to quality differentiates our product and service offering and positively impacts the experience customers have with Echoserve. We will continue to invest in quality and productivity enhancement programs," added Mr. Cone.
